

Assembly 2016

The specialists in the wood industry

**STRONG
REASONS
WHY**

Assembly lines for cabinets

These lines are composed by several stations in order to get the assembled and packed furniture cabinet, starting from all its separate components (after drilling/inserting machine).

These lines are suitable for all assembled furniture industry, such as kitchens, bathrooms and business furniture manufacturers

ADVANTAGES :

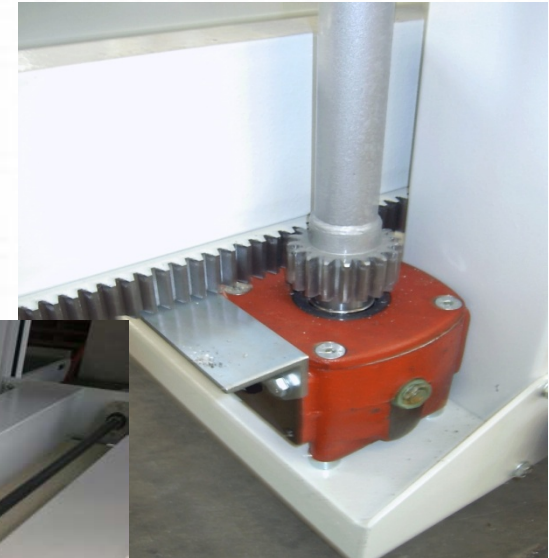

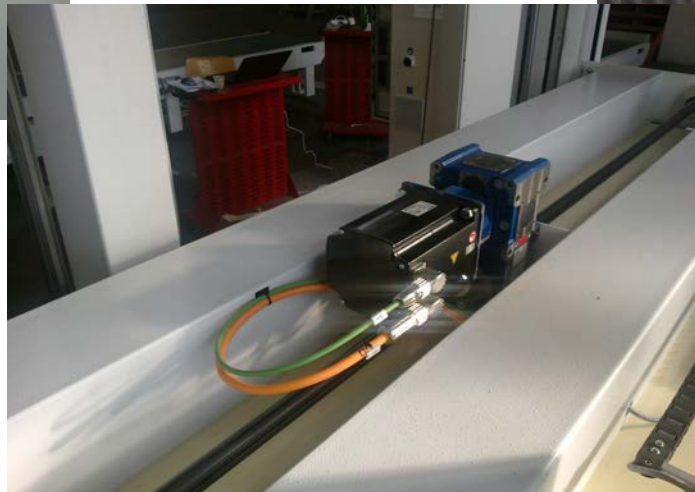

- 1) key-turn ready complete solution in collaboration with unique partner
- 2) most suitable packaging solution to customer's kind of production
- 3) range of manual / automatic solutions suitable to customer's production volumes

Cabinet clamp “ACTION TF”

- 1) Efficient cabinet squaring by means of an integrated rack and pinion system
- 2) Best performance thanks to installed brushless motors, which allow cycle's maximum speed execution.
- 3) Versatile use thanks to touch screen panel control

NEW :
Furniture back automatic stapler
